SUMMARY

Results-driven and versatile developer with a proven track record in leveraging the .NET stack, Node and FrontEnd technologies, specializing in React and Angular. Adept at contributing to the entire software development life cycle, I have demonstrated expertise in building robust and efficient applications. Collaborative by nature, I excel in cross-functional teams, fostering effective communication and alignment between technical and business requirements. My problem-solving skills have been instrumental in troubleshooting and maintaining stable applications

EXPERIENCE

Software Engineer
Merkle
Thane

February 2022 - Present,

- Developed and maintained applications using the .NET stack, including ASP.NET and C#, ensuring efficient server-side logic and seamless integration with databases.
- Spearheaded FrontEnd Development projects using React and Angular, creating responsive and interactive user interfaces that met high-quality standards.
- Contributed to the organization's innovation initiatives by actively working with Gaptex, a proprietary low-code solution, to efficiently develop data-driven architecture applications.
- Streamlined development processes by leveraging Gaptex's low-code capabilities, resulting in faster delivery times and potential cost savings.

CERTIFICATIONS

Meta Front-End Developer

May 2023 - September 2023

Link: <https://coursera.org/share/7d9f8dbb57f69fe0a4eed36987aa38c0>

Meta Back-End Developer

July 2023 - December 2023

Link: <https://coursera.org/share/eda8f33a7c787d8a86a4bc45d58187b5>

AWS Cloud Technology Consultant

October 2023 -Present

Link: <https://coursera.org/share/aecf2dc2bcb1532d548c7c7fcc14f424>

PROJECTS

<https://shashankdkte.github.io/portfolio-multi-theme/>

Unified (MERN)

December 2023 - January 2024

- Implemented a communication platform that combines text, voice and video chat for online communities.
- Useful for real time collaboration and social interaction
- Features: Authentication, Send Invitation, Accept / Reject Invitation, Video Chat Rooms, Share Screen.
- TechStack: React, Redux, Node, Express, MongoDB, Mongoose, SocketIO.
- Live <https://unified-web.netlify.app>

Mangake (ASP.NET CORE)

November 2022 - January 2024

- Online Manga Store for business as well as individual users.
- Integrated with Admin Panel for Employees with Payment
- Features: Authentication, Authorization, Stripe, Email Notification with SendGrid,
- TechStack Asp.NET Core 6 MVC, Entity Framework, SQL Server, Dependency Injection, Repository Pattern , Identity
- Live <https://hatakemanga.azurewebsites.net/>

AutoScriptor (GPT Integration)

July 2023 - October 2023

- Making the use of GPT to generate backend systems on the fly.
- Contributed to the development of agents to generate custom codes.
- Features: User can have ready made backend apis within seconds involving testing as well as review.
- TechStack: GPT - 4, Rust

Insite (MERN)

March 2023 - June 2023

- Implemented functionality for users to manage job applications.
- Enhance efficiency and boost your chances of landing the perfect opportunity
- Features: User can heavily make informed decisions based on situations
- TechStack: Node, React, Mongo, Express.
- Live <https://shashankdkte.github.io/collections/>

Connection (Angular and .NET Core)

November 2022 - February 2023

- Discover meaningful connections with our innovative dating web application, personalized matching criteria bring together individuals.
- Fostering genuine connections and opening doors to lasting relationships.
- Features: Based on criteria, find your companion.
- TechStack: ASP.NET Core, Angular, Entity Framework, SQL Server
- Live <https://clipz-ng.netlify.app/>

Rivly (Django Ecommerce)

August 2022 - October 2022

- Ecommerce platform implanted using Django framework as backend
- Allows users to rate items as well as write review about it
- Features: Authentication, Authorization, Reviewing, Commenting
- TechStack React, Redux, Django Rest, Postgres SQL
- Live <https://shashankdkte.github.io/dj-react-shop-front/>

Commuforum (Asp.net MVC)

May 2022 - July 2022

- Online community allowing users to ask, answer and upvote, downvote questions with community driven environment
- Search and Tagging Functionality to help users find relevant solution to problems.
- Features: Authentication, User friendly Language, Change Password, Change username.
- TechStack Asp.net mvc 5, SQL Server
- Live <https://discus-mvc-app.azurewebsites.net/>

Frontend

HTML, CSS, SASS, Bootstrap, Tailwind, Javascript, JQuery, Typescript.
Library/ Framework: React, Redux, RTK, NextJS, Angular.

Backend

ASP.NET CORE, Razor Pages, Web API, Blazor
Node, Express, Django

Databases

SQL Server, MongoDB, Postgres

Technologies

Languages: C#, Python, Typescript, Rust.
Microservice Architecture

AWS, Azure, Git, Github, Actions, Docker,
